Profiles	in Chikaima Uwakwe	◯ CodeWithMiguelll

Summary

- Front-end developer experienced in building responsive and interactive web applications. Skilled in UI/UX design, animation implementation, and creating seamless user experiences.

- Proficient in modern technologies such as **HTML**, **CSS**, **JavaScript (ES6+)**, **ReactJS**, **NextJS**, **TailwindCSS**, and design tools like **Figma**. Experienced with version control using **Git**.

- Developed and launched multiple self-driven projects, including **Coffeely**, a dynamic coffee shop website featuring sleek animations, a custom cart system, and **Irressentials**, showcasing my ability to deliver live, fully functional applications.

- Passionate about user-centric design and committed to continuous learning through personal projects.

Experience

Irressentials   January 2024 - April 2024
Frontend Developer and Designer   Remote
🔗 https://irressentials.vercel.app

Built and designed **Irressentials**, an e-commerce website using ReactJS and Tailwind CSS. Improved website speed and performance, incorporating interactive features and animations to enhance user experience and engagement.

Coffeely   May 2024 - August 2024
Frontend Developer and Designer   Remote
🔗 https://coffeely.vercel.app

Designed and developed Coffeely, an interactive coffee shop website using ReactJS, Tailwind CSS, and Framer Motion. Built a responsive UI and an authentication-based cart. Optimized load times and enhanced user engagement with custom animations.

Northlight Creative Studios — Portfolio Website   In Progress
Founder and Developer

- Designing and developing a modern, responsive portfolio site using Next.js, Tailwind CSS, and shadcn/ui.

- Implementing interactive UI components (custom header, user profile card, styled footer).

- Focused on combining clean design with storytelling to showcase both technical and creative skills.

Northlight Creative Studios   2023 - Present
Product/Visual Designer

- Designed brand identities (logos, colour systems, and typography) for small businesses.

- Created responsive UI mockups in Figma for web projects.

- Developed marketing assets (social banners, product graphics) for campaigns.

- Supported web development projects with consistent visual design.

Education

Ebonyi State University, Abakiliki   June 2021 - Present
Chemistry Teacher Education   Bachelors
