Profiles

 CodeWithMiguelll   Chikaima Uwakwe

Summary

- Innovative frontend developer with a passion for designing and engineering visually stunning, performance-driven web applications. Experienced in building responsive, accessible, and interactive interfaces that blend clean design with modern functionality.

- Proficient in **HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, and TailwindCSS**, with hands-on experience in **TypeScript**, **RESTful APIs**, and **responsive design systems**. Adept at **UI/UX prototyping, design handoff, component architecture, and version control using Git/GitHub**.

- Founder and lead creative at **Northlight Creative Studios**, a digital design and development agency specializing in crafting sleek, user-focused products for clients across industries. Previously developed self-driven projects like **Coffeely** and **Irressentials**, demonstrating expertise in **animation libraries**, **state management**, and **frontend performance optimization**.

- Known for a **user-centric mindset**, collaborative energy, and constant drive to explore new technologies that elevate product design, accessibility, and interactivity.

Experience

Irressentials   January 2024 - April 2024
Frontend Developer and Designer   Remote
🔗 View Website

Built and designed **Irressentials**, an e-commerce website using ReactJS and Tailwind CSS. Improved website speed and performance, incorporating interactive features and animations to enhance user experience and engagement.

Coffeely   May 2024 - August 2024
Frontend Developer and Designer   Remote
🔗 View Website

Designed and developed Coffeely, an interactive coffee shop website using ReactJS, Tailwind CSS, and Framer Motion. Built a responsive UI and an authentication-based cart. Optimized load times and enhanced user engagement with custom animations.

African AI Network   November 2024 - June 2025
Graphic and UI/UX Designer   Remote

- Designed intuitive, user-centered interfaces for web and mobile products that improved user engagement and retention.
- Collaborated with engineers and data scientists to translate complex AI workflows into visually clear, human-friendly dashboards.
- Developed cohesive brand assets — from marketing graphics to visual design systems — ensuring design consistency across all platforms.
- Created scalable UI component libraries in Figma that streamlined development handoffs and accelerated iteration cycles.

Northlight Creative Studios — Freelancing Agency   August 2025 - Present
Founder and Developer

- Designing and developing a modern, responsive portfolio site using Next.js, Tailwind CSS, and shadcn/ui.
- Implementing interactive UI components (custom header, user profile card, styled footer).
- Focused on combining clean design with storytelling to showcase both technical and creative skills.

Northlight Creative Studios   2023 - Present
Product/Visual Designer

- Designed brand identities (logos, colour systems, and typography) for small businesses.
- Created responsive UI mockups in Figma for web projects.
- Developed marketing assets (social banners, product graphics) for campaigns.
- Supported web development projects with consistent visual design.

Rise Of The Rejects — Screenplay Website   October 2025
Frontend Developer & Graphic Designer
🔗 View Website

- Developed an interactive website for my original screenplay *Rise of the Rejects*, blending narrative storytelling with modern web development.
- Implemented dynamic character and faction pages using TypeScript for scalability and maintainability.
- Integrated cinematic animations with Framer Motion to create a visually immersive user experience.
- Optimized images, routing, and layouts for strong performance and SEO across devices.

Education

Ebonyi State University, Abakiliki   June 2021 - 2024
Chemistry Teacher Education   Bachelors

B.Sc. Chemistry Education — Class of 2024

Skills

Frontend Development	Design	Tools & Technologies
